

FOR ENGINEERS, DESIGNERS,
END USERS AND
PROJECT MANAGERS

■ **FIREDOS TECHNICAL SESSION** RESPONSIBLE FOAM PROPORTIONING

With the evolving need for environmentally-conscious foam proportioning equipment, learn about FireDos proportioners' design and operating principles and system requirements when specifying them in your customer's special hazards applications.

Additionally, attend a live demonstration of FireDos proportioners to get a hands-on experience for their place in the proportioning technology landscape.
